UNIVERSAL SUFFRAGISTS.

While the Movement in This State Has Met With Discouragements and Lack of Interest in Some Quarters, the Good Women Look Hopefully to the Future-Some Good Work Done and More to Follow.

Special Dispatch to the Intelligencer

WASHINGTON, Feb. 15.-The report of the West Virginia delegates to the National Association of Universal Suf-National Association of Universal Suf-fragists, the closing sceness in which were enacted to-day, sets forth that "the record of the West Virginia Woman's Suffrage Association for 1899 was the record of two clubs. While it may look as if no great progress has been made, the year has not been without results.

"The Wheeling club had a lecture on "Mountain Climbing," and a concert. Financially these were not a great success, and left the club much discour aged. It decided to quit work for a chile. A few of the more earnest on have agreed to send dues in the fall of 1900, and keep their organization alive until better days.
"The Fairmont club undertook to

study wills and fleeds, with question-able success. Then Mrs. Mary Butcher conceived the idea of securing Rev. Anna Shaw to speak before the West Virginia legislature. Through a mis-understanding, Miss Shaw thought the W. C. T. U. had sent her, and in place of speaking on woman suffrage in the constitution, she spoke on school suffrage. But the lecture was a great success. All the newspapers gave com-plimentary notices, and we heard of many favorable comments and of some converts to our views.

"The Wheeling club declined, as a club, to heip with the expense of Miss Shaw's address, but some of the members sent contributions, and the Fairmont club gave its never-to-be-forgotten pancake supper, Shrove Tuesday, as a means of raising funds. The presi dent of the Clarksburg club sent the money left in its treasury.

"The Fairmont club esnt copies of the Woman's Journal to the West Virginia University, to the six normal schools, and to individuals who it was believed would read them.

"In the fall we despaired of having state convention, but Mrs. Catt and Miss Hay urged us to try, and generously offered to come for just what a collection would bring. As a result of the convention an oner of \$35 has been made in prizes for the best orations on "The Enfranchisement of Women," \$10 to the university and \$25 to be competed for in the six normal schools.

The convention has pledged itself to an effort towards organizing new clubs. No club has been yet organized, but for eight weeks the Fairmont club held a weekly cake sale, raising \$70 to pay an organizer's expenses. 'The press correspondent for last year was discouraged, but Mrs. Jessie Manley, the incumbent, is meeting with better suc-

A number of factors contributed to an

early advance in prices. The initial im-

pulse came from the London market,

where prices advanced on the cheerful feeling engendered by the forward

move of British troops in South Africa.

London was a buyer here at the open

ing, but the demand from that source

was satisfied with the taking of 25,000

morning under the active bidding up of

professional traders, American Steel &

Wire rising to within a fraction of 60. Tennessee Coal rose an extreme 2% per

cent. The impulse to these stocks came

pending law suit of notoriety, regard-ing the enormous profits of the steel

trade for the past year and assertions of the likelihood of still larger returns

for the current year. The strength in Sugar was based upon rather vague

rumors of coming advance in the price

of the product and resuption of opera-

tion by refineries recently closed down. But the strength from these causes was

not well maintained in face of the

apathy of the demand and the notable

weakness in some special stocks. A break of 6% per cent in Third Avenue

was due to the announcement by, s

and steel stocks and Sugar, and in fact

came dull and notably firm near to last

night's level of prices. All reports con-tinue to reflect a high level of prosper-

ous business activity and an unprece-dented level of railroad earnings. But

this very activity in business arouses

CHICAGO-By reason of the heavy cash business done yesterday, light country offerings and an increased

cash business done yesterday, light country offerings and an increased speculative demand, corn had strength enough for itself and to spare to-day, May closing %c over yesterday.

Wheat got its best support from the coarse cereal, and May closed %c up. Oats closed %c higher and provisions 124,615c up for pork; 2%c for lard, and 567%c for ribs.

Corn started the day rather easy, May opening at 24%,024%c to 32%,024%c and selling off early to 24%c. The depression was only temporary, however, for the market quickly found itself crowded with buyers, while holders were not lavish with their offerings. The desire to get corn was actuated by small country offerings and the large chash business done yesterday. The speculative demand was also improved and the shipping business done to-day, it was reported, promised to be heavy. Trade was notive and the market broad. May soared to 35% c without any material set-back, closing %c up at 35% 635%c having receded from the top on profit takings. A large commission business was done and big bull people were a help to the prices. Receipts here were 468 cars. Clearances were 1,034,000 bushels.

With snow on the ground and northwest receipts 160 cars larger than last year's, and 200 cars over last week, holders set a shade less value on their May wheat at the opening, which was at 65%,055%c for May, compared with yesterday's close at 68%c. Before support was received the market touched 65%c. The reaction was caused by strength of corn, better later cables, reports of more damage, to the French crop, an improved export demand and better late cables. May worked its way up to 694,069%c, and closed firm and %c over yesterday at 69c. Trade was active, the greater part of the session. There was considerable profit taking. New York reported thirty-two loads taken for export demand and better late cables. May worked its way up to 694,069%c, and closed firm and %c over yesterday at 69c. Trade was active, the greater part of the session of the greater part of the session oats lagged, but tow banking house of its withdrawal of a proposed losn to this company. The greater part of the session oats lagged, but towards the end took a brace in sympathy with the strength of corn. The trade was not large. Local receipts were 181 cars. May ranged from 23%c to 24c, and closed %c up at 24c.

money thus involved is not likely to de-plete the supply of funds available for There was a dip in provisions early, but the market recovered on the strength of corn and a firmer tone in hogs. Trade was fairly active. May pork ranged from \$10 \$314@11 00 and closed 1216@15c over yesterday at \$11 00. May lard from \$6 00@8 0214@8 0714. closing 216c up at \$8 0714. and May ribs from \$5 9214 to \$6 05. with the close 5@ 714c higher at \$8 0216@6 05.
